

Aqualine 240 Reverse Osmosis System

REVERSE OSMOSIS ALFA SERIES TECHNICAL TABLES

Model	Alpha 240
Flow	250 l/hr
Efficiency	50%
Typical mineral reduction	97 to 98%
Membranes	2 x 4040
Inlet/outlet/drain	3/4", 1/2", 1/2"
Electricity	230v single phase
Water quality	Requires softened water supply , less than 1000 mg/l TDS raw water mineral content.

Conductivity probe and alarms, level switch, pressure switch and alarms all included
