

Evolve Series® Conditioners

The Evolution of Self-Chlorinating Water Treatment Systems

A Single System Used to Effectively Treat Water in a Single Pass

- Removes hardness
- Removes iron
- Removes manganese
- Raises low pH levels
- Reduces iron and sulfur bacteria
- Reduces unpleasant tastes and odors

Evolve®
Series

Evolve Series® water treatment systems combine patented self-chlorinating technology with advanced electronics to perform like four units in one — softening, removing iron and manganese, and raising low pH levels. This self-sanitizing system also controls odors caused by nuisance bacteria and minor sulfur conditions. With so many features, this system is more than evolutionary ... it's revolutionary.

- Exclusive Crystal-Right™ media to remove hardness, iron and manganese, correct pH and control odor
- Patented self-chlorinator technology for bacteria control
- Visual and audible "Check Salt" indicator
- Alternate sequence regeneration
- Extended lithium battery backup
- Easy-to-read LCD color display
- Overrun capacity protection
- Single-unit operation — no chemicals or added equipment

WaterRight®
The Right Water
for Life

The rugged Evolve Series® control valve features top tank flange.

It's the Media ...

At the heart of Evolve's performance is the Crystal-Right® media, a crystalline media exclusive to Water-Right, Inc. In a single pass, this unique media does more to remove hardness, iron and manganese while raising low pH levels, than any other media available today.

It's the Control Valve ...

Advanced — LCD color display actually changes colors to signal service needs or convey service modes. Easy-to-read digital lettering clearly spells out all commands and functions and will display the dealer name and phone number when system needs service. An audible chirp even alerts you to "low salt" conditions or other service needs.

Powerful — This unique controller remembers all operating functions and will never lose programming due to a power failure. It will even hold history and diagnostic information. System regenerations are automatically activated according to actual water consumption and patterns.

It's Your Local Dealer ...

Our continued success comes from the integrity and quality service of our dedicated dealers. They are seasoned professionals, knowledgeable in all aspects of water analysis and treatment. You can be assured that Water-Right and your local dealer will treat both you and your water right.

It's the Company ...

Since 1963, Water-Right, Inc., a family-owned company, prides itself on providing both professional and personal service. Today, the Water-Right brand is found around the globe as we continue to provide *"the right water for life."*

Evolve Series® Conditioners

The Evolution of Self-Sanitizing Water Treatment Systems

Protect Your Household

Evolve Series® water conditioners provide the quality water you need for everyday life. Day and night, your water will now perform the way it should ... creating richer lathers by using less soap, rinsing cleaner without film and residue ... even protecting your household plumbing from staining, scale and mineral deposits. Best of all, this system is built to last and easy to operate.

When armed with the right tools — media, control valve, chlorine generator, professional dealer and the Water-Right company itself — no other water treatment solution can compare in features or performance. Protect your home and your family with the best.

Your local water treatment professional:

It's the Chlorine Generator ...

The Evolve uses a patented chlorine generator technology which produces chlorine to kill and remove unwanted iron and sulfur bacteria — the same nuisance bacteria that produces foul smells and the "slime coating" inside plumbing fixtures and toilet tanks.
